

DKV launches new website

Detailed information on e-mobility and digitalization / consulting tool / 24h live chat function

Ratingen, 21.01.2021. The new DKV website is now available at www.dkv-mobility.com. With a modern, user-friendly design, it is intended to provide a brief, concise insight into the DKV portfolio. In addition, users will now find detailed information on e-mobility and digital products. An advice tool guides users to the appropriate product via seven questions. For more in-depth questions, a live chat function is available around the clock. DKV had already relaunched its corporate group website last year. At www.dkv-mobility-group.com, detailed information on DKV management, sustainability and social commitment can be found.

"Our company is currently undergoing a vehement transformation process from a classic fuel and service card provider and toll specialist to a full-service mobility provider," says Marco van Kalleveen, CEO of DKV Mobility. "We also want to show this new 'World of Mobility' of DKV to the outside world with our new website."

DKV Euro Service

DKV Euro Service has been one of the leading mobility service providers for the logistics and transport industry for over 80 years. From cashless route delivery at over 200,000 cross-brand acceptance points to toll collection and VAT refunds, DKV offers a comprehensive range of services for optimizing and managing vehicle fleets throughout Europe. DKV Euro Service is part of the DKV MOBILITY SERVICES Group with over 1,200 employees. In 2019, the Group achieved a transaction volume of EUR 9.9 billion and was active in 42 countries. Currently, more than 4.2 million DKV CARDS and on-board units are in use with over 230,000 contractual partners. In 2020, DKV CARD was named the best brand in the fuel and service card category for the 16th time in a row.
